Working with multiple projects based on Magento 2 e-commerce platform. There were many of shops like MTP, Obag, Coccodrillo, Tołpa or GoSport.

September 2011 - Present

Owner & Front End Developer
Zone Zero

- Working with many e-commerce platforms like: Magento 1, Magento 2, WordPress, PrestaShop, PicoCMS and more
- Server side: **Node**, **Angular**, **Knockout**, MySQL, PHP
- Client side: **JavaScript (ES5/ES6)**, **HTML5**, **CSS**
- Creating stylesheets and js libraries using **GULP** preprocessor and **Sass** CSS extension language
- Using the **JSON** format to obtain asynchronous data loading
- Configuration Apache with PHP and MySQL on Linux platform
- Speeding up existing websites
- Creating friendly SEO code
- Using **GIT** controll version system
- Multitasking
- Cooperating with multiple clients

Working with multiple projects from simple cms websites to big e-commerce platform. I was cooperating with Freephone, Laboratorium Sztuki Pi, More Concepts, Auronia, Diamate Wear, ModernPet, Advanced Logic. By last five years I'm working with Floordirekt.de as Front End Developer. During the 7 years of Zone Zero's existence I had the opportunity to work on projects: floordirekt.de, regale-guenstig.de, gummimatte.de, gummimatten.biz, whiteboard-flipchard.de, officechairmats.com, defected.com, quanticlo.com, auronia.de, bricogarden.it. In officechairmats we were working with **Docker** containers.
Other things: connected websites with API's: SMS API, Facebook API. Prepare small **Angular** projects like zone-zero.pl.

March 2007 - August 2011

Full Stack Developer
DreamLab Onet.pl

- Implementing UI for web services
- Working with DreamLab MVC framework and SMARTY
- Preparing PHP and HTML in projects
- Cooperating with team
- Building websites with **jQuery**, **Prototype**, **AJAX** and **Bootstrap**
- Using **SVN** controll version system

Developing existing and creating new websites and services for whole ITI Group like: TVN24, Plejada.pl, gielda.onet.pl, biznes.onet.pl, kalkulatory.biznes.pl and others. Working with MySQL DataBases in small projects. Participing in regular meetings (SCRUM methodology) and updated product managers on progress.

August 2006 - February 2007
